Number of characters	Up to 10 characters can be embroidered per one location. It may be possible to add additional characters depending on the item, size of character(s), etc For more information, please contact us via email, telephone, or fax									

The standard font size for embroidery is approximately 2.5 cm x 2.5 cm for dogi and black belts, and approximately 1.6 cm x 1.6 cm for other products.

The overall balance and aesthetics are taken into consideration when embroidering. Based on the embroidery location, size, and the number of characters, font size may be a few millimeters to 1 cm larger(or shorter) than the standard size(s).

Additionally, embroidery space is limited. If it is a long name, the font size will be reduced accordingly to make it fit at the designated location.

Size may also change depending on the font selected. E.g. Alphabet,, Katakana, Hiragana, etc.
